

Additional information

The PhD student and his/her supervisor have to contact the coordinating office by the end of the PhD project, but before the PhD defense, to evaluate the curriculum of the candidate.

The certificate will be awarded during the defense ceremony by the supervisor or a EURON representative as member of the dissertation defense committee.

A supplementary document will be added to the certificate mentioning the activities and ECTS obtained. Additional educational and other activities (without ECTS) may be added to the certificate. (See the table below for detailed information.)
